Migrating a Client onto OpenTofu for Speed + Costs
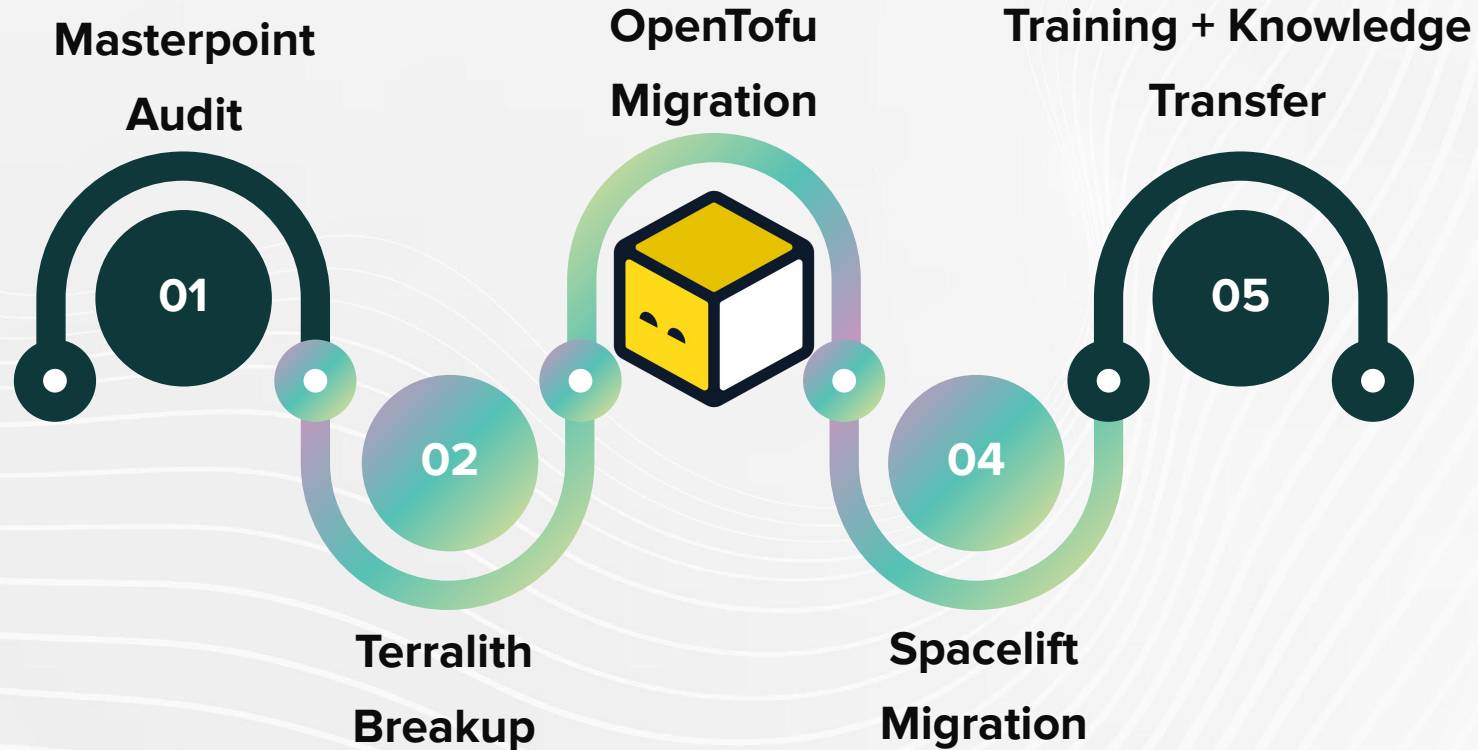

By Matt Gowie, Masterpoint

Background
Power Digital's Terraform System

The Challenges

- ‣ Terraform Cloud - 50% Failure Rate

- ‣ Maintenance requiring 60+ hours of engineering time per month

- ‣ The Dreaded Terralith

- ‣ Delayed Business Operations

- ‣ Looming 10x increase in costs

Our Solution

Masterpoint Audit

01

Terralith Breakup

02

OpenTofu Migration

Spacelift Migration

04

Training + Knowledge Transfer

05

The Results

Increased reliability

No more failed runs

Cost reduction

Costs are now less than $500 /month, compared to $5000 / month projected on TFC

Improved performance

Plan + apply times reduced by almost 10x

Increased operations

New client onboarding no longer a bottleneck

25 min → 3 min
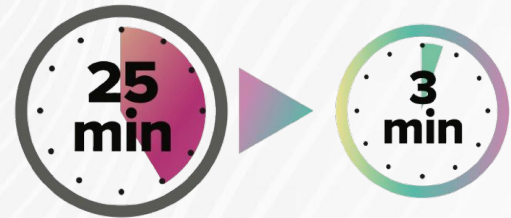

Why was OpenTofu critical?
